created in our wastewater
treatment plant and drives our
brewing process.

Swinckels' Superior Pilsner was born out of a centuries-old family tradition, an almost sacred trust in intuition and experience. The transition from the sixth to the seventh generation was crowned by the introduction of Swinckels'. A Superior Pilsner brewed with natural mineral water from our own spring, malt from our own malt house, yeast and a unique blend of Cascade and Polaris hops. A superior pilsner with a pronounced, fresh and refined taste. This is how we do it, averse to conventions, trusting in intuition.
